

Thick-It® Instant Food and Beverage Thickener, Thick-It®2 Instant Food and Beverage Thickener and Thick-It® Purees have been assigned the “Healthcare Common Procedure Coding System” (HCPCS) codes by the “Statistical Analysis Durable Medical Equipment Regional Carrier” (SADMERC), a functional arm of the Medicare/Medicaid system.

As you may know, a HCPCS designation does not mean that our products are covered, it simply streamlines the process. Please advise your clients to check with the state from which they are seeking reimbursement about the coverage of our products.

Thick-It® AquaCareH2O® Beverages have not been assigned the HCPCS codes, but may be covered under certain private insurance policies.
