

## Plus-up your drink selection.

Staying well hydrated can be a challenge for anyone, especially for people with swallowing difficulties. Water alone can't provide all the nutrients and minerals a body needs to function at its best. Help your residents with dysphagia get the fluids and electrolytes they need with new Clear Advantage® Plus Electrolytes Thickened Beverages.

The Thick-It® brand's latest advance in dysphagia nutrition, Clear Advantage® Plus Electrolytes Thickened Beverages are pre-thickened to a mildly thick-nectar consistency and ready-to-drink in a resealable, single-serve bottle.

Save your team valuable time. Clear Advantage® Plus Electrolytes Thickened Beverages require no measuring, mixing, or waiting for beverages to thicken. Available in fruit punch and grape, Clear Advantage® Plus Electrolytes Thickened Beverages deliver the electrolytes a body needs with the refreshing flavors everyone wants.

**READY TO DRINK**

**Pre-thickened and in resealable, single-serve bottles**

**Lasts up to 24 hours after opening to reduce waste**

**NO HIGH-FRUCTOSE CORN SYRUP**

**A leader then.  
A leader now.**

Since 1987, the Thick-It® team has been leading the way in the development of safe, satisfying, and easy-to-use dysphagia nutrition solutions. A welcome addition to our line of xanthan-based, IDDSI-compliant, ready-to-drink beverages, new Clear Advantage® Plus Electrolytes Thickened Beverages provide essential electrolytes to help people with dysphagia stay hydrated in a convenient, satisfying drink—no measuring, mixing, or waiting required.

Do not use Thick-It® brand products with infants under the age of 2. Thick-It® brand products should only be used with children under the age of 12 in consultation with a physician.
